2025 HIGHER SCHOOL CERTIFICATE EXAMINATION

Textiles and Design

General Instructions

- Reading time – 5 minutes
- Working time – 1 hour and 30 minutes
- Write using black pen
- Write your Centre Number and Student Number at the top of this page

Total marks: 50

Section I – 10 marks (pages 2–4)

- Attempt Questions 1–10
- Allow about 15 minutes for this section

Section II – 24 marks (pages 5–9)

- Attempt Questions 11–13
- Allow about 45 minutes for this section

Section III – 16 marks (pages 10–13)

- Attempt BOTH Question 14 and Question 15
- Allow about 30 minutes for this section

Section I

10 marks

Attempt Questions 1–10

Allow about 15 minutes for this section

Use the multiple-choice answer sheet for Questions 1–10.

- 1** Why is fixation an important principle in the dyeing process?

 - A. It improves colourfastness.
 - B. It produces a brighter colour.
 - C. It speeds up the dyeing process.
 - D. It increases the colour range of synthetic fibres.

- 2** Which of the following is a property of wool that makes it suitable for the end-use of a hand-knitted baby's blanket?

 - A. It is inexpensive.
 - B. It is easy to launder.
 - C. It is a poor conductor of heat.
 - D. It is an extremely lustrous fibre.

- 3** Which of the following are BOTH examples of internal factors that can influence the success of a designer?

 - A. Social media and skill level of workers
 - B. Tertiary training and resource availability
 - C. Consumer demands and skill level of workers
 - D. Resource availability and government legislation

- 4 Many women's dresses in the 1960s were made from synthetic fibres such as nylon. These dress designs are now being recreated using natural fibres such as cotton.

This is most likely a result of

- A. the influence of movies on fashion design.
 - B. the availability of resources to the industry.
 - C. fashion designers responding to economic change.
 - D. society influencing historical design development.
- 5 Which of the following would best enhance the performance of a pair of cotton fabric shoes for casual wear?
- A. Dyeing the fibre
 - B. Painting the fabric
 - C. Applying a soil-resistant finish
 - D. Applying a fire-retardant finish
- 6 Which row of the table correctly identifies an advantage and a disadvantage for consumers of shopping bags made from washable web?

	<i>Advantage for consumers</i>	<i>Disadvantage for consumers</i>
A.	Cheap to produce	More costly to replace
B.	Any fibre can be used	Low durability
C.	Last longer than plastic bags	Excess waste is created in production
D.	Stable to wash	Short life span

- 7 Which of the following is most likely to occur during the introduction stage of the product life cycle?
- A. Increased sales, high profit, improved marketing
 - B. Rapid sales, increased profit, supply meeting demand
 - C. Slow sales, little profit, marketing to educate consumers
 - D. Decreased sales, decreased profit, modifications to products

- 8** A sportswear company wants to improve the overall quality of finished items.

Which of the following would best achieve this?

- A. Using machine embroidery
- B. Using locally sourced fabrics
- C. Eliminating computer-aided design
- D. Implementing computer-aided manufacturing methods

- 9** A new clothing manufacturer is having trouble finding skilled staff to construct its garments in Australia.

Which of the following could be the reason for this?

- A. Wages for textile workers in Australia are high.
- B. Australia has limited training opportunities to replace workers nearing retirement age.
- C. Manufacturing in Australia uses automated machines, so human labour is not required.
- D. Most experienced textile workers in Australia move overseas for better employment opportunities.

- 10** An adult's sleeping bag needs an outer layer to protect the user from the weather.

Which fibre, yarn and fabric structure would be best suited for the outer layer of the sleeping bag?

	<i>Fibre</i>	<i>Yarn</i>	<i>Fabric structure</i>
A.	Nylon	Multifilament	Plain weave
B.	Cotton	Staple spun	Satin weave
C.	Nylon	Core spun	Weft knit
D.	Cotton	Multifilament	Twill weave

Textiles and Design

Sections II and III

Answer Booklet

Instructions

- Write your Centre Number and Student Number at the top of this page
- Use this answer booklet for Sections II and III
- Answer BOTH sections
- Follow the instructions inside this booklet as to where you should write your answers

Please turn over

Section II

24 marks

Attempt Questions 11–13

Allow about 45 minutes for this section

Answer the questions in the spaces provided. These spaces provide guidance for the expected length of response.

Question 11 — Australian Textile, Clothing, Footwear and Allied Industries (8 marks)

- (a) A designer plans to release a range of bed sheets made from organic fibre. **2**

Outline a suitable target market for the bed sheets.

.....

.....

.....

.....

- (b) Describe a sustainable practice used in Australian textile production. **3**

.....

.....

.....

.....

.....

.....

Question 11 continues on page 7

Question 11 (continued)

- (c) Explain the impact of globalisation on the marketing of textile items. Support your answer with a specific example.

3

.....
